CAREER SUMMARY:

Eager to secure a full-time role in the field of web designing/developing and game developing, where I can apply my foundational skills and passion for coding and gaming to contribute to innovative projects and grow professionally within a supportive team environment.

SKILLS:

- **Programing Languages:** HTML, CSS, JS, React.JS[Basic]
- **Frameworks:** React.js[Basic], Tailwind CSS
- **Technologies:** Photoshop, Blender, Cascadeur, Z-Brush, Unreal Engine
- **Soft Skills:** Prompt Engineering, Creative Mindset, Story Writing, Good Communication Skills, Research Skills, Team-Work Skills
- **Language:** English, Hindi

PERSONAL PROJECTS:

ANIME WORLD WEBSITE

- **HTML, CSS and JS**
  - Anime World – A sleek, interactive website for anime fans, featuring smooth animations, responsive design, and easy navigation. Explore detailed anime info, trailers, and characters with an engaging UI built in HTML, CSS, and JavaScript. Perfect for discovering and enjoying your favorite shows

BLOODLINE VENGEANCE

- **Video Game [ONGOING]**
  - Bloodline Vengeance is a dynamic and immersive action- adventure RPG set in a vast, intricately crafted fantasy world. Players assume the role of a "Yama," a rare individual with a dark past.

MOVIE FINDER WEB PROJECT

- **Tech Stack:** React, Vite, CSS, TMDB API, React Router, localStorage, Git, GitHub, Vercel
- Built a responsive movie discovery web project using React and the TMDB API. Implemented search functionality to fetch and display movie data including posters, ratings, and overviews. Integrated a genre-based filter and a persistent Watchlist using localStorage. Used React Router for multi-page navigation and CSS for styling with light/dark theme toggle. Handled edge cases like API errors, loading states, and empty results for a polished user experience.

My Portfolio

- **Tech Stack:** React.js, CSS3, AOS, React Icons, TMDB API, Git, GitHub, Vercel
- A responsive personal portfolio built with React.js, featuring a clean UI with dark/light theme toggle, smooth animations, and interactive components. Showcases projects including a Movie Finder app with TMDB API integration. Deployed on Vercel.
